

1. The list of packages are shown in the “Experience” menu.
2. To add a new package, click the shopping cart below the specified package.  
If multiple packages are selected, the count in the shopping cart in the red circle will be updated.
3. Click on the shopping card in the upper right corner of the page to navigate to the list of packages.

4. Modify the quantity of the package using the “+” and “-” icons, or remove the whole package from the list using the “bin” icon.

The Order Summary table will be automatically updated with the total discounts, etc after pressing any of the three icons.

5. In the first table, Total refers to the quantity x price for each package.
6. In the second table,
  - a. Total Before Discount - refers to the total for all packages, if multiple packages are selected.
  - b. Discount Subtotal - refers to all discounts in dollars for all packages, if multiple packages are selected.
  - c. Free packages - are the total added quantity from the “Buy 2, get 1 free” promotions.
  - d. Payable Amount - refers to the total after subtracting the discounted dollar amount for all packages.
